

## Corporate Sailing Program

Designed to meet the corporate event, incentive & training requirements of today's business world, our sailing events are based on team building activity and tailored to meet your requirements and objectives.

A combination of exceptional facilities and industry professionals offered by Sunshine Sailing Australia enables the delivery of world-class sailing events to meet the needs of local Queensland, interstate & international businesses for team based training and fun events.

Sunshine Sailing Australia is well positioned to get you on the water quickly from both our great locations on the Sunshine Coast. Yachting events can also be organised on Moreton Bay.

Whilst there may be only one winning team, everyone is a winner, taking away an experience that will be talked about at the bar that night, the next day, week, month maybe even until next year when the experience can be relived.

Experience in Sailing - Excellence in Training
